

# 1<sup>st</sup> Grade Newsletter

We have been having fabulous fun with our fantastic first graders since the first day of first grade! Our Language Arts Theme Two, "Surprises", is centered around stories that show that things don't always turn out the way you expect. Theme Three, "Let's Look Around", focuses upon interesting things that happen in the world around us. Please continue to encourage your child to study the word wall words at home on a regular basis. Be sure to read lots of good books together!

In Math, we are solving addition and subtraction equations. We are also telling and solving story problems.

In Science this marking period, the students will use scientific skills and processes to study organisms.

In Social Studies, the students are learning about citizenship at home, school and in their neighborhood.

Please be sure to send in the requested supplies for your child. If possible, please send in a few dry-erase markers too! Thank you so much!

Mrs. Lemerand, Mrs. Ruocco, and Mrs. Shives
