

Excellence By Design

During the 2008-2009 school year, all Cecil County high schools are focused on a year of self-study. The purpose of this is to become prepared for next school year, when we will be completing our Middle States accreditation . In order to do this, we have reevaluated our School Improvement Plan, and have focused on three goals that we feel confident will further increase our success here at North East High School: increasing our student's achievement, improving our school's climate, and Increasing our graduation rate/reducing our drop-out rate. (link to our SIP) We have additionally updated our **Mission Statement, Core Beliefs** and **Profile of Graduates** that we believe hold true for our educational community. (link to these three items) As valued stakeholders in our community, we would like to encourage our parents to take the survey, which will help us to see our school through another set of eyes. The survey has 68 questions, asks for comments, and addresses questions linked to the 12 standards set by Middle States.

Thank-you for working with us toward improving our school.
