

Search Format: field operator value

Example: last_name = johnson

Common fields:

lastfirst	:student name - last, first
grade_level	:current grade
schoolid	:MSDE LEA number
st_sped	:Special Ed flag
esol	:ESOL flag
md_titleone	:Title One flag

Typical Comparison Operators:

=	:equal to
#	:not equal to
contains	:any char within
!contain	:does not contain

Numeric comparison operators

(will work with simple text searches, also):

>	:greater than
<	:less than
>=	:greater than or equal to
<=	:less than or equal to
<>	:not equal to

Search Examples:

last_name = smith	:Last name is Smith
first_name = john	:First name is John
lastfirst contains mit	:Full name contains chars "mit"
grade_level >= 3	:Current grade is > or = to 3rd grade
schoolid in 311,315,801	:Students in HHES, LEEDS or CONO
st_sped#	:Special Ed flag is not blank
esol#	:ESOL flag is not blank
md_titleone#	:Title One flag is not blank

Combined Searches:

field1 name = value1; field2 name = value2
 schoolid=801;grade_level<=1

Complex Searches:

Find girls in the Special Ed program at Holly Hall and Leeds
 gender=f;st_sped#;schoolid in 311,315

Find students at Title One schools who do not have the Title One flag
 turned "on"

TE,BB,BV,GM,HH,NE are Title One
 schoolid in 316,704,510,310,315,506; md_titleone =
