

Press Release 9-09

Students of the Month for September 2009

The Student of the Month Committee is pleased to announce the September Students of the Month.

Representing the freshmen class is Jonathan Stauffer. Mr. Dion stated, "Jonathan has straight "A"s as a freshman in Honors Chemistry. He actively participates in class discussions, works well with others in lab setting, and asks questions just to be sure before proceeding. Jonathan has a pleasant and inquisitive nature."

Representing the sophomore class is Luke Raymond. Mrs. Nickle stated, "Luke is very conscientious with his work and he always contributes in class discussions. A PowerPoint that he and his group completed was excellent and the corresponding presentation was done very well. He is a sophomore in a level 3 course and he is doing a great job! He worked 1 ½ hours on an assignment that many of his classmates did not complete." Mrs. Muzzey stated, "I believe Luke deserves to be student of the month because he demonstrates tremendous effort and initiative. He is always highly focused and works in my class to keep others focused. He is very personable and dedicated to his school work."

Representing the junior class is Samantha Witt. Mrs. Perry stated, "Sam always works hard on every assignment. She shows a genuine interest in social studies and is quick to ask thoughtful questions about a topic. I have seen a complete change in her since last year. Her hard work is paying off!"

Representing the senior class is David Tideberg. Mr. Connelly stated, "David is academically gifted with an A in Oracle 2 and AP Computer Science. He is extremely helpful and a positive role model."
