

# Cecil County Young Crime Victim Trauma Initiative

Do you know a child who has been impacted by substance use? While there are many services available for people with a substance use disorder, there are not many resources for children who indirectly suffer.

Cecil County is proud to partner with Bodhi to offer therapy services, workshops, and trainings to address this need at no cost to families! There is transportation available for families who require assistance.

## ~Services Include~

- \*Mental Health Counseling
- \*Trauma-focused Therapy
- \*Trauma-informed yoga classes
- \*Meditation
- \*Parent and Peer training workshops
- \*Agency training and consultation
- \*Clinical support for agencies

For more information, or to refer a child, please contact  
Amanda Woods, Local Care Team Coordinator at
