### Public Content

---

The purpose of this Action Item is to award CCPS Bid #17-09: LED Fixtures and Energy Rebates Project.

On March 16, 2017, competitive sealed bids were opened for the purchase and delivery of LED lighting fixtures to replace existing school building and parking lot exterior lighting with energy efficient LED lighting. The Perryville High and Rising Sun High schools lighting upgrades will use specific high efficiency outdoor LED lighting fixtures which qualify for rebates sent back to CCPS to offset the cost. The Delmarva Power Commercial & Industrial Energy Savings Program for Lighting Fixtures and Controls in Existing Buildings is the rebate source.

Installations will be performed by our facilities department to lower these project costs. The award bidder is also responsible for processing the rebate applications on behalf of CCPS. The fixtures will be ordered upon approval by the Board and rebate approval by the Delmarva Power program. The amount of both rebates is estimated to be 20% or more of the total purchase price. These funds will be used for additional facilities projects.

The lowest responsive/responsible bidder conforming to CCPS specifications was submitted by MLED Tech, LLC, in the amount of \$44,711.

Funding for this purchase is through the FY17 Operating budget.
