

WHAT advantages does CCST offer to students?

- CCST offers a variety of career and technology programs that give students the opportunity to acquire and master job skills, gain authentic work-place experience, and prepare for life as responsible citizens.
- Articulated college credits from area colleges are available to students in some CCST career and technical programs.
- Comprehensive career training and experience, along with opportunities to earn industry certifications will prepare students for entry into today's competitive workplace.
- Business partnerships with local employers offer students the opportunity for further career and technical training and possible full-time employment.
- Leadership opportunities are available to students through their membership in youth organizations at the local, state, national, and international levels.

WHEN can students apply for admission to CCST?

During the tenth grade year, students attend presentations at their home high schools given by the CCST counselor.

Students from the five county high schools have the opportunity to begin programs during their junior year by a designated application process. Students will complete their programs during their senior year. Students will attend every other day each year. *

Students may obtain an application from the CCST counselor or from their high school counselor.

There is a competitive application process for enrollment due to a limited number of spaces available for students per programs. Students accepted into the Cecil County School of Technology will have done so either through the merit or lottery process. In programs where the number of applications exceeds the number of seats available, half of the seats will be based on merit—looking at their grades and attendance as well as a non-traditional gender basis of program choice; the other half of the seats will be filled through a lottery process.

The lottery process will be conducted in a public setting at an announced date and location using an electronic randomizer. All applicants will then be notified through their home school counselor.

* Cosmetology students must attend every day in their junior year and every other day in their senior year.

WHO attends CCST?

CCST is a shared-time high school for juniors and seniors from the five high schools in the county.

HOW does the admissions process work?

The following are requirements:

- ⇒ An academic average of a “C” or better through grade 10.
- ⇒ A pattern of regular attendance.
- ⇒ Possession of good work habits, both as an individual and as a team member.
- ⇒ Positive class and school citizenship.
- ⇒ A demonstrated interest in one of the career and technical programs offered at CCST.
