CONSENT and RELEASE OF INFORMATION FOR SPORTS CONCUSSION TESTING PROGRAM

*For Student Athletes participating in
Field Hockey, Football, Soccer, Basketball, Wrestling, Cheerleading, Baseball, Softball and Lacrosse*

I understand that pre-concussion baseline testing will be administered at my son/daughter's high school, and is a part of the procedure for guiding their return to sports participation after the injury.

Procedures

- There is no charge to the athlete for this pre-concussion baseline testing conducted at the school.
- The results of this pre-concussion testing will be reviewed and filed in a secure website by the Concussion Management Program hosted at Cecil County Public Schools.
- If my son or daughter sustains a concussion, a post-injury test may be necessary for comparison with the baseline test to help guide return to sports participation.
- The post-injury tests are administered at the school by the Athletic Trainers.
- I may choose to use the Concussion Management Program as the concussion specialist or I may elect to consult with my primary care physician or another concussion specialist outside of the school system to assist my son/daughter's recovery. Results of the pre-concussion testing can be made available in writing only on request.
- Cecil County Public Schools (CCPS) is not providing medical coverage or reimbursement for any testing, assessment, follow-up, or rehabilitation beyond the initial pre-concussion baseline screening test.

Limitations on Use of Information

- I understand that the concussion baseline testing is designed only for concussion management and not as an intelligence or IQ test and will not be used for educational planning or placement decisions.
- It is important to recognize that blows to the head can cause a variety of injuries other than concussions (e.g., neck injuries, more serious brain injuries). The sports concussion program is designed for concussions only. You must see your doctor as soon as possible to address any other medical concerns.

Storage, Use of Information, Persons Authorized Access, and Confidentiality

- All medical personnel will comply with all HIPAA procedures in regards to these records.

Acknowledgement and Consent

I have read this document completely and I understand the terms and conditions set forth above under Procedures, Limitation on Use of Information, and Storage, Use of Information, Persons Authorized Access, and Confidentiality. I understand that this testing program is not a mandatory requirement of sports participation but voluntary participation in this program is highly recommended by Cecil County Public Schools. I consent to the administration of the concussion testing of my child under this program and to the release of my child's testing information and related protected health information to the individuals specified in this form.
