

CCPS Summer Learning Opportunities

With the unexpected closure of schools in March, many families have looked for engaging resources that help students continue to grow outside of school. Below are links to resources that are suggested by our instructional coordinators that connect students and parents to resources that will help students improve skills and prepare for the upcoming school year. We hope that these resources give our students interesting and challenging options for continued learning throughout the summer. Most of these resources are online; however, there are several that offer printable activities.

Pre-K through Kindergarten	Gifted and Talented-Elementary/Middle
Elementary Reading	Grades 1-5 Mathematics
Middle School Reading	Middle School Mathematics
High School Reading	High School Mathematics
