Students will take the following certification exams:

- NCCER — Core: Intro to Craft Skills
- NCCER — Electrical Level I
The Electrical Trades program is only offered at the Cecil County School of Technology (CCST). Students from the five county high schools have the opportunity to begin the Electrical Trades program during their junior year by a designated application process. Students will complete the program during their senior year.

Students are encouraged to develop positive work attitudes while building individual skills for success. Transportation is provided from the home school to and from CCST. Program fees include the cost of trade appropriate clothing, tools, and license/certification tests.

Students in the Electrical Trades program must have a physical before beginning the program.

---
