Students will take the following certification exams:

- NCCER — Core: Intro to Craft Skills
- NCCER — Industrial Maintenance Level 1

Cecil County School of Technology
912 Appleton Road
Elkton, MD 21921
Phone: 410.392.8879  Fax: 410.392.8884
Guidance Office: 410.392.8880

Revised 12/2016
The Heavy Industrial Maintenance (HIM) program is only offered at the Cecil County School of Technology (CCST). Students from the five county high schools have the opportunity to begin the HIM program during their junior year by a designated application process. Students will complete the program during their senior year. They are encouraged to develop positive work attitudes while building individual skills for success.

Transportation is provided from the home school to and from CCST. Program fees include the cost of trade appropriate clothing, tools, and license/certification tests. Students in Heavy Industrial Maintenance are required to have a physical before entering the program.

This program provides students an opportunity to learn about the industry as it relates to commercial building maintenance. Participants gain experience in a variety of electrical and maintenance skills. Skill competencies include demonstration of mastery of commercial and industrial wiring, piping practices, shielded metal arc welding, and welding safety. The course of study correlates to the modules of the National Center for Construction Education and Research (NCCER) standards.

**PRE:** Algebra I  
**REC:** Design & CADD Technology

Fees are approximately $250 for uniform and equipment.

*Students earning a B or higher in Heavy Industrial Maintenance I & II may receive articulated college credit.*
