Upon completion...

Students will be able to:

- Demonstrate the ability to explain the trends in copyright laws and legal issues in the use and development of media communication.
- Define the scope of work to meet project requirements and constraints, and develop a proposal outline.
- Select, implement, and evaluate appropriate project management techniques and tools.
- Use the tools and skills needed to create drawings and graphics for a wide range of applications.
- Identify and use traditional and non-traditional sources of information.
- Design, code, build, test, and troubleshoot basic custom programs for simulation and gaming.
- Create gaming applications with advanced interactive components.

Cecil County Public Schools does not discriminate in admissions, access, treatment or employment in its programs and activities on the basis of race, color, gender, age, national origin, religion, sexual orientation, or disabling condition.

Students from the five county high schools have the opportunity to begin programs during their junior year by a designated application process. Students will complete their programs during their senior year.

Guidance Office: 410.392.8880

12/2016
Courses Covered in the Program

Principles of Art, Media, and Communication provides students with an understanding of all aspects of the Arts, Media, and Communications industry. Students will examine the opportunities and requirements of the major career pathways in this industry including: Communication and Broadcast Technologies, Multi-media Production, Graphic Design, and Print Communication.

Interactive Media Production will advance students’ knowledge and skills in media design and production through project planning and product development. Students will demonstrate the use of multiple tools and modalities in the production process.

Advanced Simulation and Gaming focuses on interactive media design, simulation, and gaming. Students will advance their knowledge and skills through the design and development of simulation/gaming products.
