100% online program offers flexibility for busy teachers.

Early Childhood Education (MAT)

The Master of Arts in Teaching (MAT) in Early Childhood Education is designed to prepare aspiring educators for teaching roles in preschools, kindergartens, and early elementary grades. The program focuses on a balanced combination of coursework and field experiences, providing students with the necessary theoretical knowledge and practical skills to become effective early childhood teachers.

Courses Offered:

- Psychology and Development of Young Children
- Early Childhood Curriculum Principles and Practice
- Processes and Acquisition of Reading Literacy
- Principles of Special Education for Early Childhood
- Principles of Assessment for Early Childhood
