Introduction to Personal Finance
Cecil County Public Schools

While studying Personal Finance, students will investigate a wide variety of concepts to help them manage their financial future. Students will learn to develop goals, create spending plans, manage earnings, navigate credit and debt, make informed financially responsible decisions, and learn ways to save and invest to achieve long-term financial goals.

Utilizing Maryland State Standards for Personal Financial Literacy Education, students will focus on developing the content knowledge and skills to make informed financial decisions. Materials from Take Charge Today, Next Gen Personal Finance, and The Stock Market Game will be used to engage students in relevant instructional experiences.

Personal Finance teachers will have access to a Scope and Sequence providing an overview course and aligned instructional materials. Each unit is represented by a concept focus that serves as a lens through which the content will be explored. The units are intended to be taught in the identified sequence and conceptually as indicated below:

**Unit 1 - Career Education and Income**
- Long term and short term financial and career goals
- Resume, cover letters, and interviewing
- Planning for higher education and career
